October 8, 1998

Dear Members of Tau Beta Pi:

On behalf of the students, faculty and staff of the College of Engineering, I would like to welcome you to Kansas State University. It is a great pleasure and distinct honor to have the Kansas Gamma Chapter host the 93rd Tau Beta Pi National Convention.

K-State College of Engineering was born on the frontier prairies of Kansas over 100 years ago. Today, with about 3,000 students, our college still maintains its tradition as a pioneer in engineering education and research excellence. We are home to world class research centers such as the Advanced Manufacturing Institute and the Hazardous Substance Research Center. We are extraordinarily proud of our remarkable students who compete at the highest academic levels. Besides our many Truman, Rhodes, Goldwater and Marshall scholars, we have produced more Washington Internships for Students of Engineering (WISE) interns than any other college of engineering in the nation.

I hope you have a wonderfully fulfilling experience at the 1998 Tau Beta Pi National Convention.

Sincerely,

Terry S. King
Dr. Terry S. King
Dean and
Paslay Chair in Engineering

Dr. Fowler
Fyl. This is
for the banquet
program Thurs.
evening (opening
bnqt.) Thanks!
Maureen
